Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) Responsive to communication(s) filed on 08 March 2005.
- 2a) This action is **FINAL**. 2b) This action is non-final.

Art Unit: 2686

DETAILED ACTION

1. This Action is in response to Applicant's amendment filed on March 8, 2005. **Claims 1-28** are still pending in the present application. **This Action is made FINAL.**

Drawings

2. New formal drawings are required in this application. See the attached Notice of Draftsperson's Patent Drawing Review for appropriate corrections.

3. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office Action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended". If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the Examiner, the Applicant will be notified and informed of any required corrective action in the next Office Action. If a response to the

Art Unit: 2686

present Office Action fails to include proper drawing corrections, corrected drawings or arguments therefor, the response can be held **NON-RESPONSIVE** and/or the application could be **ABANDONED** since the objections/corrections to the drawings are no longer held in abeyance.

Specification

4. The disclosure is objected to because of the following informality: The columns under the headings of **Table 1 in page 9** are shifted to the left from their respective headings. (Note: The amended paragraph submitted failed to correct the above objection). Appropriate correction is still required.

Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office Action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Art Unit: 2686

6. **Claims 1, 5-10, 12-14, 16, 17, 19-21, and 23-27** are rejected under 35 U.S.C. 102(b) as being anticipated by **Kung (EP 0 863 678 A2)**.

Consider **claims 1 and 17**, Kung clearly shows and discloses a system and method for automated interactive management of a communication service account, said account having parameters establishing rules of use during which a user device accesses the communication service (abstract), comprising:

a server (figure 2); and

a data storage device (figure 2) in communication with the server, the data storage device comprising account data that comprises the parameters establishing rules of use of at least one subscribed communication service, where said at least one subscribed communication service is accessible by a user device (abstract, figures 1 and 2, column 3 lines 29-51, and column 4 line 13 - column 5 line 11);

wherein the server is configured to receive a customer-initiated signal requesting modification of a first account parameter from said parameters and to modify and update the first account parameter in response to the customer-initiated signal (figures 1 and 2, column 3 lines 29-51, and column 4 line 13 - column 9 line 19).

Consider **claims 5-8, 19, and 20, and as applied to claims 1 and 17 above**, Kung further shows and discloses that the at least one subscribed communication service is long distance telephone service share a cable TV transmission medium, the user device is a telephone, the customer-initiated signal is initiated on the user device or in a PC, and the first account parameter is a number of calling plan minutes (column 3 lines 29-51 and column 7 line 2 -

Art Unit: 2686

column 9 line 22).

Consider **claims 9, 10, 12-14, 16, 21, 23, and 24-27, and as applied to claims 1 and 17 above**, Kung also shows and discloses wherein the server is further configured to: receive a customer-initiated identifying signal identifying the user device, to retrieve the first account parameter in response to the identifying signal, to issue, in response to the identifying signal and for communication to the customer, a response signal comprising at least part of the first account parameter, to identify the type of user device, and to issue the response signal in a form optimized for the user device (figures 1 and 2, column 3 lines 29-51, and column 4 line 13 - column 9 line 19).

7. **Claims 1-4, 9-11, 14, 15, 17, 18, 21, 22, 27, and 28** are rejected under 35 U.S.C. 102(e) as being anticipated by **Rosenberg et al. (U.S. Patent # 6,628,934 B2)**.

Consider **claims 1 and 17**, Rosenberg clearly show and disclose a system and method for automated interactive management of a communication service account, said account having parameters establishing rules of use during which a user device accesses the communication service (abstract), comprising:

a server (figures 1-4); and

a data storage device (figure 2-4) in communication with the server, the data storage device comprising account data that comprises the parameters establishing rules of use of at least one subscribed communication service, where said at least one subscribed communication service is accessible by a user device (abstract, figures 1-4, and column 6 line 1 - column 10 line

Art Unit: 2686

65);

wherein the server is configured to receive a customer-initiated signal requesting modification of a first account parameter from said parameters and to modify and update the first account parameter in response to the customer-initiated signal (column 6 line 1 - column 10 line 65).

Consider **claims 2-4, and as applied to claims 1 and 17 above**, Rosenberg et al. further show and disclose that the at least one subscribed communication service is a wireless telephone service, the user device is a wireless telephone, the customer-initiated signal is initiated on the user device or in a PC, and the first account parameter is a number of calling plan minutes (column 6 line 1 - column 10 line 65).

Consider **claims 9-11, 14, 21, 22, 27, and 28, and as applied to claims 1-4 and 17 above**, Rosenberg et al. also show and disclose wherein the server is further configured to: receive a customer-initiated identifying signal identifying the user device, to retrieve the first account parameter in response to the identifying signal, to issue, in response to the identifying signal and for communication to the customer, a response signal comprising at least part of the first account parameter, to identify the type of user device, and to issue the response signal in a form optimized for the user device (figures 6-13 and column 6 line 1 - column 10 line 65).

Response to Arguments

8. Applicant's arguments with respect to **claims 1-28** have been considered but are moot in

Art Unit: 2686

view of the new ground(s) of rejection.

Conclusion

9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office Action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

10. Any response to this Office Action should be **faxed to (571) 273-8300 or mailed to:**
